Nemo for the Management.

AWARD

An industrial dispute having come into existence between the employers in relation to the Central Bank of India Ltd. and their workmen in respect of the matters specified below, the Government of India, Ministry of Labour and Employment, New Delhi, passed the requisite orders under Section 7/A read with clause (d) of Sub-Section (1) of Section 10 of the Industrial Disputes Act, 1947, and referred the said dispute for adjudication to this Tribunal *vide* Government of India, Ministry of Labour and Employment Order No. 51(34)/65-LRIV, dated the 31st August, 1965.

1. Whether the Management of the Central Bank of India Limited was justified in treating Shri Ram Karan Gupta only as a temporary employee and in subsequently terminating his services with effect from 30th May, 1964?

2. If not, to what relief is the employee entitled?

Usual notices were issued to the parties and in response to the same the workmen filed their statement of claim and the management filed their written statement to the same. The two Issues which arose in the case were precisely the same as the two items in dispute. The parties were called upon to lead their evidence in respect of the said Issues. On the date when the said evidence was to be led i.e. on 16th March 1966 the workman concerned made a statement before me that he and the management had mutually settled the dispute and that the management had taken him back in service. He stated that the demands covered by the two items of dispute may be dismissed as having been satisfied. Mr. A. L. Chopra Deputy General Secretary of the Labour Union, at whose instance the reference had been made also made a similar statement. The workmen did not lead any evidence in view of the fact that the demands had been satisfied. The demands are, in these circumstances, dismissed as having been satisfied. No order as to costs.

APPEARANCES:

On behalf of employers—Shri D. Basu Thakur.

On behalf of workmen—Shri P. K. Sanyal, Advocate.

STATE: West Bengal. INDUSTRY: Port & Dock.

AWARD

The Government of India, Ministry of Labour and Employment, by their Order No. 28/97/64/LR.IV, dated 26th December 1964, have referred the industrial dispute existing between the employers in relation to the Calcutta Licensed Measurers and their workmen in respect of the four matters specified in the schedule annexed to the order for adjudication to this Tribunal.

2. Though the above order was passed in December 1964, it was received by this Tribunal only in April 1965 because it was, through mistake, delivered to the West Bengal Industrial Tribunal and was later on transferred here. In response to notices issued by the Tribunal, the parties filed their written statements. At the hearing, neither party led any oral evidence. Actually, in the course of arguments, there was agreement between the parties on various points and the parties agreed that I should pass an award accordingly.

3. There are four points referred to for decision to this Tribunal. I shall take them up one by one.

(i) Whether workmen shall be allowed the facility of pre-fixing Sunday or Holiday to leave?

This question relates to the facility of pre-fixing Sundays and Holidays to the privilege leave which may be granted to the workmen. Such facility is usually granted everywhere and there is no reason why such a facility should be denied here. Actually the only ground on which the employers resisted this claim was on the ground that they have a system of fixing work by roster which begins on a Sunday and ends on a Saturday. I was told that if workmen were allowed to fix Sundays or Holidays to their privilege leave, their roster may be upset. I am not able to understand or appreciate this point because if a workman goes on leave, other arrangement will have to be made in his place and this arrangement will, if the facility of prefixing Sunday or Holiday to leave is granted, have to be done a day or so earlier. Actually in the course of arguments, Shri Basu Thakur who appeared on behalf of the employers said that they were not quite sure how far their roster would be affected by this facility. He agreed that this facility may be granted if the employers were allowed to change the roster, if they thought it necessary to do so. Assignment of work to different workmen, and fixing of the roster for the purpose, and questions of internal management; and it is the right of the employer to do so. I see no reason why they should not be allowed to change the roster if they think fit, provided, of course, they do so according to rules and do not infringe any of them. At the same time, if the change is likely to cause hardship to one or more workmen, I am sure, the employers will consider the hardship if a representation is made to them and try to evolve a suitable solution. I hold that the workmen should be allowed the facility of pre-fixing Sunday or Holiday to leave.

(ii) What should be the rules in respect of borrowings from the Compassionate Fund?

4. The dispute on this point is regarding the amount that a person can borrow from the Compassionate fund. I am told that the workers are in fit cases, granted a loan equal to one month's salary. The employers interpret salary to mean basic pay, while the workmen urge that it should be both basic pay and dearness allowance combined. In other words, the dispute is whether the loan should be equal to one month's basic salary or whether it should be equal to one month's basic salary and dearness allowance.

5. Getting of a loan is not a matter of right and this was conceded before me. It was conceded that for instance if there was no balance in the Compassionate fund, the employers could refuse granting of any loan. Further even if the persons are entitled to ask for a loan, it would be within the right of the employers to fix the amount of the loan. The only ground on which the workmen claim that the loan should be not only equal to basic salary but equal to basic salary and dearness allowance is that clerks are given a loan equal to basic salary and dearness allowance combined.

6. In this connection, it may be noted that the earnings of clerks are much lower than the earnings of the workmen covered by the present reference. The

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

clerks would, therefore, have greater need of a loan. Again, as their basic salary is lower, if the loan is only equal to basic pay, it may not be sufficient for their purpose. If clerks are given a loan equal to their basic salary and dearness allowance, that would be no reason why the present employees whose total emoluments are much higher and whose basic pay is also much higher should claim the same privilege. The amount of a loan would depend on the necessity and earnings of a worker. In all these circumstances, I think that the workmen covered by this reference cannot claim that they should be allowed to borrow a sum equal to one month's basic pay and dearness allowance combined. In my opinion, the present practice by which the loan is limited to one month's basic pay should continue.

(iii) Whether the management is justified in imposing the condition that the employees should obtain prior permission of the Superintendent or the Supervising Staff on duty for moving outside the Dock area during lunch and dinner breaks?

7. The workmen have to work in three shifts. The first shift is from 6.30 A.M. to 3.30 P.M. and the second shift from 3.30 P.M. to 10.30 P.M. and the third from 10.30 P.M. to 6.30 A.M. It is an admitted fact that workmen in the first shift are given a break of one hour for taking lunch while workmen in the second and third shifts get a break of half an hour for taking dinner. These breaks are known as meal breaks. The employers say that during this break, the workmen should not leave the dock area without the prior permission of the Superintendent or the Supervising staff on duty. The workmen, on the other hand, urge that as they are entitled to the break or recess, there should be no such rule requiring permission from time to leave the dock area.

8. It is an admitted fact that sometimes during an emergency or pressure of work, the workmen may have to be called upon to work even during the meal break, that is, the recess period. If a workman goes outside the dock area, it may not be possible to reach him or to inform him about his attending work immediately. In my opinion, it would meet the ends of justice if instead of the workmen being required to take prior permission to move outside the dock area during the lunch and dinner breaks, they are required to give prior intimation in writing as to where they are going during the lunch or dinner break. It would, in case of necessity, facilitate the employers in calling them from wherever they may be.

9. In this connection, I was told that this privilege may be abused by the workmen by overstaying the period of the lunch or dinner break and they may return for work late. In a case of that type, the employers would be at liberty to take such disciplinary action as they think fit and as may be permissible under the rules.

(iv) Whether salary paid shall include allowances or not when the second shift volunteer works upto 7.30 P.M. and attends duty on the next day?

10. If a workman who is on duty on the first shift from 6.30 A.M. to 3.30 P.M. is required to work in the second shift also, he gets certain privileges. If he works for the whole of the second shift, that is, from 3.30 P.M. to 10.30 P.M. he gets volunteer fees and also gets a paid day off for the next day. If on the other hand, he is required to work only from 3.30 P.M. to 7.30 P.M., he has to work during his usual shift on the following day and all that he gets is one half of his volunteed fee for the first day and an allowance equal to one half of his basic pay for the next day. What the workmen want that if he is required to work for the second shift upto 7.30 P.M., he should be paid not only one half of his basic salary for the next day but he should also be paid one half of his dearness allowance for that day.

11. I may here refer to an agreement dated 31st March 1963 entered into between the parties before the Conciliation Officer (Central), Calcutta. Under the terms of this agreement, the parties had agreed *inter alia* that the said agreement was to be binding on them for five years from 1st April 1963 to 31st March 1968 and that during this period the workmen were not to make any economic demand on the employers. It may be noted that the demand of the workmen on this point amounts to their claiming an amount equal to half days dearness allowance in addition to what they are getting now, in case they are required to work from 3.30 P.M. to 7.30 P.M. in the second shift after having worked during the whole of the first shift. In other words, this involves an economic demand.

When this was pointed out to Shri Sanyal who appeared on behalf of the workmen, he very fairly gave up his claim for the present. In view of this, I am not expressing any opinion on the merits of this point.

Parties will bear their own costs.

I pass my award accordingly.
